

WARSAW DJ & PRODUCER • AMOMA RECORDS • PEAK-TIME / MELODIC TECHNO

01 DJ CONSOLE & HARDWARE REQUIREMENTS

PREFERRED SETUP

- **Mixers:** Pioneer DJM-900NXS2 or Pioneer DJM-A9
 - Requirement:** 3-band EQ and active frequency isolation on Beat FX.
 - Note on 4-band mixers:** Artist can perform on Pioneer DJM-V10 or Allen & Heath (Xone:96) if mandatory, but 3-band Pioneer setups are strongly preferred.
- **Players:** 3x Pioneer CDJ-3000 linked via Pro DJ Link (CAT5/6 network switch).
 - Minimum acceptable:** 2x Pioneer CDJ-2000NXS2 (fully linked).
- **Maintenance:** All channel faders, crossfader, cue buttons, rotary pots, and display screens must be fully functional and serviced.

02 MONITORING & BOOTH ENVIRONMENT

- Two high-power active stereo monitor speakers with immediate, latency-free volume adjustment directly from the mixer booth output.
- **Single Monitor Rule:** If only one monitor speaker is available, it must be positioned strictly on the **ARTIST'S LEFT-HAND SIDE**.
- **Booth Fan:** 1x working electric desk/floor fan directed at the artist.
- **Atmosphere (Nice to have):** Active haze/smoke machine in the venue.

03 HOSPITALITY & BACKSTAGE (Club & Out-of-Town Dates)

BOOTH REFRESHMENTS

- Still water (bottled, non-carbonated).
- Coca-Cola Zero (or alternative zero-sugar soda).
- Energy drinks (preferably Red Bull Sugarfree).
- 1-2 clean, dry cotton stage towels.
- (Artist does not drink alcohol).

TRAVEL & ACCOMMODATIONS (OUT-OF-TOWN BOOKINGS)

- Round-trip travel reimbursement (train, flight, or fuel).
- Private, quiet hotel room near the venue.
- **Mandatory Late Check-Out** (guaranteed until minimum 14:00 / 15:00).
